

# TRUSTEE SERVICES

## Connecting Your Family Through Our Firm

Selecting a trustee who can efficiently and professionally administer your trust upon your incapacity or death is one of the most important decisions you will make relating to your estate plan. Anderson, Dorn & Rader, Ltd. now offers comprehensive and professional trustee services through its Fiduciary Services Department.

## WHAT ARE THE BENEFITS OF APPOINTING AD&R AS A TRUSTEE?

Choosing the right trustee to administer your trust and estate is an important and sometimes difficult decision. A trustee could be a family member, a close friend, or a professional corporate trustee. Please consider the following benefits for your trust and estate plan when selecting AD&R as successor trustee:

### Stability

AD&R has the time and ability to administer all aspects of your trust for the entire duration of the trust. Continuity and consistency are critically important now and for generations to come.

### Neutral and Professional

A common misconception is that a family member or close friend is the best choice to serve as a trustee. AD&R can be a neutral decision-maker and make tough decisions regarding trust distributions. Family unity could be jeopardized by a family member serving in that capacity.

### Experience

AD&R has over 20 years of experience in trust administration, complex trust formation, advanced tax planning, and special needs trusts for loved ones with a disability.

### Comprehensive Services

With AD&R as your trustee, you do not need to search for all the pieces to the estate planning puzzle. We provide our clients with professional, comprehensive trustee services all under one roof. In contrast to large corporate trustees, we have both the capacity to work individually with each beneficiary and the resources to provide the services
